

Guidelines for the Final Presentation

Guidelines for Creating Your Final Presentation

Title Slide

- **Project Title**
- **Your Name**
- **Course Name**

Introduction

- **Objectives and Goals**
- **Project Scope**

Literature Review

- **Summary of Relevant Existing work**
- **Relation of Your Project to Previous work**

Methodology

- **Description of Methods and Techniques Used**
- **Pseudo Code for Techniques Used**
- **Time Complexity Estimation**
- **Data Structures Utilized**

Analysis and Results

- **Hours spend in this project per week and month**
- **Key Findings Presentation**
- **Use Charts, Graphs, and Tables to Illustrate Results**
- **Interpretation of Results**

Discussion

- **Implications of Findings**
- **Project Limitations**

Conclusion

- **Conclusions from the project**
- **Recommendations for Future work**

- **List of All Cited Sources**

Formatting Requirements:

- **Font:** Use **Arial or Calibri** for body text; **Title font** can be **Times New Roman** for a classic, professional look.
- **Font Size:**
 - **Title Slide:** Title 40pt, Subtitle 28pt
 - **Headings:** 28pt
 - **Body Text:** 20pt
 - **References:** 18pt
- **Color Scheme:** Choose a **consistent color scheme** with 2-3 colors that complement each other. Avoid overly bright colors; opt for professional tones (e.g., navy blue, teal, gray).
- **Background:** Ensure a **clear, simple background** for readability. Light backgrounds with dark text work well; avoid busy patterns.

Tips for Creativity:

- **Design:** Use a cohesive color scheme and readable fonts. Titles and headings should stand out.
- **Visuals:** Incorporate high-quality images, diagrams, and infographics to make your presentation more engaging.
- **Interactivity:** Consider adding interactive elements if the format allows.
